PROJECTS

IMDb Movie Data Analysis (Databricks & PySpark)

- Built a large-scale movie analytics pipeline in Databricks using PySpark to process and analyze 12M+ IMDb records, uncovering trends in film production, genre popularity, and audience ratings across decades.
- Applied data cleaning, schema transformation, and aggregation techniques to prepare raw IMDb datasets for visualization and insight generation.

WORK EXPERIENCE

Sales Associate

2021 to 2022

CVS Pharmacy | Miami, FL

- Assisted in the management of store inventory
- Engaged with clients at checkout using proprietary software
- Provided photography services and communicated effectively with customers.
- Processed cash and card transactions accurately while maintaining balanced drawer reconciliations
- Supported team operations during peak hours by coordinating stock replenishment across assigned floor sections
